Welcome to our Keynote Speaker

Neighborhood Villages designs and scales innovative and collaborative solutions to the biggest challenges facing early education and child care providers serving families with young children ages 0-5 and advances sustainable, equity-driven systems change through advocacy, education, and policy reform.

We advocate for early education and care policy reform and implement innovative, scalable solutions that address the biggest challenges faced by early education and care providers and the families who rely on them. We specialize in ground-level, strategic interventions aimed at building the capacity of the early education and care sector, and advocate for the public investment it needs and deserves. We show systems change in action to push policy forward.
